

## \*\*PRESS RELEASE\*\*

January 1, 2026

**Subject: Transfer of Ownership – PTG New England**

Thank you for being a part of PTG's 26 years of success in representing top-quality electronic production equipment and supply manufacturers in the northeast.

Since 1999 PTG has expanded from a small team of two in New England into a regional presence covering 13 states, comprising seven salespeople, a sales analyst, and marketing specialist.

Historically, PTG has operated as two separate divisions: PTG New England (MA, NH, VT, VE, CT, RI) and PTG New York (NY, NJ, ePA, MD, DE, VA, WV.)

We are pleased to announce that, effective January 1<sup>st</sup>, Gail Denney will assume full ownership of PTG's New England division. Gail has demonstrated outstanding dedication and expertise over her 8-year career with PTG, following 16 years of additional in-market sales experience.

Donald Lausier will retain full ownership of, and responsibility for, the New York division.

As a result, Performance Technologies Group, Inc. (the NY group) and Performance Technologies Group New England, LLC (the New England group), will operate as two individual companies.

Be assured that there will be no interruption, or changes, to our legacy distribution and customer interactions.

Please reach out if you have questions.
